

AUTHORIZED RESELLER VERIFICATION ADVISORY

Official Customer Guidance

Executive Summary

Rentar Environmental Solutions maintains an authorized global distribution network to ensure that every customer receives genuine Rentar Fuel Catalyst products backed by factory technical support, current technical documentation, and applicable warranty coverage. This advisory provides practical guidance for procurement officers, fleet managers, and engineering teams seeking to verify whether a company is currently authorized to sell, distribute, or represent Rentar products. Verification protects customers from unauthorized representation and helps maintain the performance, safety, and reliability standards expected of Rentar technology deployed in mining, marine, agriculture, power generation, and industrial operations worldwide.

Intellectual Property Protection

Rentar technology is protected through applicable patents, trademarks, proprietary know-how, contractual rights, and related intellectual property protections across jurisdictions worldwide. The Rentar Fuel Catalyst reflects more than two decades of engineering development, field validation, and manufacturing refinement for heavy-duty diesel applications. Rentar's intellectual property portfolio includes the catalyst formulation, manufacturing processes, commercial licensing rights, application engineering methodologies, and associated technical documentation. Unauthorized commercial representation of Rentar products may violate applicable laws depending on jurisdiction.

Why Verification Matters

Genuine Product

Verification ensures you receive authentic Rentar Fuel Catalyst products manufactured to Rentar's specifications, performance standards, and quality controls. Unauthorized sources cannot guarantee product authenticity or performance.

Factory Technical Support

Authorized distributors provide factory-backed technical support including application engineering, installation guidance, and ongoing operational assistance directly from Rentar's engineering organization.

Warranty Eligibility

Products purchased through unauthorized channels may not be eligible for warranty coverage or factory support. Verification protects your investment and ensures access to Rentar's full support infrastructure.

Five Questions Every Purchaser Should Ask

Question	Purpose	Expected Response
Is your company currently an authorized Rentar distributor?	Establish authorization status directly.	Yes, with written authorization from Rentar Environmental Solutions.
Can you provide written proof of authorization?	Obtain verifiable documentation of authorization status.	Written authorization letter or certificate from Rentar on company letterhead.
Do you source products directly from Rentar?	Confirm supply chain integrity from manufacturer to end customer.	Yes, direct supply from Rentar with traceable product documentation.
Will my products be eligible for factory warranty and support?	Protect investment and ensure access to Rentar support infrastructure.	Yes, all products supplied through authorized channels carry full warranty coverage.
Can I verify your authorization status directly with Rentar?	Independent verification for procurement confidence and compliance.	Yes, contact Rentar at info@rentar.com for authorization verification.

Verify Authorization

Rentar will verify whether a company or individual is currently authorized to sell, distribute, or represent Rentar Fuel Catalyst products. To request verification, contact info@rentar.com. Please include the company name, website, and any relevant quotation or sales literature for prompt review.

Report Unauthorized Representation

To report unauthorized representation of Rentar products, please contact info@rentar.com with the following information: company name, website, quotation or offer received, sales literature or marketing materials, and supporting documents.
